## Over 66 Years Old.

We have before us a copy of the Logan Gaz itte printed at Bellefontaine, June 1, 1832 Is was edited and published by Hiram B Strother, and was No. 15 of Vol. 2 of the first paper printed in Logan county. It was a five column paper, very creditable for the time. It affords another strong proof of the fact that "History repeats itself," The first page is occupied with a speech in Congress, and a long discussion of the currency question. The second page contains an account of the late "Indian War," a spat of the editor with a contemporary, notice of a political apportionment bill, a notice of the meeting of the Medical Society of Ohio, and the expulsion of Jabez Segar, 'for connecting himself with a certain empyric, professing to be an Indian Root Doctor," and a discussion of civil service, or the right of the President to remove a man from office for political reasons. The third page contains a report of the proceedings of Congress, a five line noa half of "News from England," as late Charles H.
